

Biology in Focus: Meet the CIB New Researchers

CENTRO DE INVESTIGACIONES BIOLÓGICAS MARGARITA SALAS

30 de abril de 2025

9:15-9:30h **Opening:** Pilar S. Testillano

9:30-10:05h **Deciphering the role of the complement system in
ANCA-associated vasculitis**

Elena Goicoechea, *Molecular and Cellular Biosciences Department*

10:05-10:40h **ALFIN-LIKE proteins recruit SWR1C to repress
responsive genes**

Israel Ausín, *Biotechnology Department*

10:40-11:15h **Coffee break: meet the speakers**

11:15-11:50h **Engineering good viruses for crop trait reprogramming**

Fabio Pasin, *Biotechnology Department*

11:50-12:25h **Toxic ties: Repairing DNA-protein crosslinks to maintain
genomic integrity**

Annamaria Ruggiano, *Molecular and Cellular Biosciences Department*
