

SEMINAR PROGRAM, 2013

Biología Físico-Química

*“Tryptophan tryptophylquinone biosynthesis:
How a diheme enzyme catalyzes post-
translational modifications by long range
catalysis”*

Prof. Victor L. Davidson

Burnett School of Biomedical Sciences
College of Medicine, University of Central Florida

Jueves, 17 de enero de 2013.

12:00 h.

SALÓN DE ACTOS
