ANALYSIS REQUEST FORM - LC PREPARATIVE

Please fill in the blank fields

User Data						
Date:			Name:			
Email:			Phone:			
Main Researcher:			Department:			
Center/Company:			Mailing Address:			
VAT number:						
Project Type (European H2020, PN, Others):						
Project Reference:						
Sample Information (fill in the blank fields corresponding to the requested analysis)						
Users must provide the method used for compound purification on an analytical scale (column and solvent), including a chromatogram or experimental proof of the same.						
HPLC-Prep (Agilent)			FPLC-ÄKTA (indicate Autonomous/Assisted)			
Sample Data						
A complete protocol for extraction and sample preparation must be provided to the service staff.						
HPLC-Prep	Analyte to purify	Liquid Samples		Solid Samples		Present additives
		Solvent	Concentration	Solvent*	Weight	
FPLC-ÄKTA	Protein to purify	Size	pI	Culture Origin	Buffer (pH/molarity)	Present additives
* If the sample is delivered as a solid, the user must specify the solvent in which it should be dissolved (ensuring complete dissolution)						
Nº	Sample Name	Observations	Nº	Sample Name	Observations	
Facility Observations
